

Aura White 100142-0002

*The Aura concept was created by a group of leading architects to be suitable for various environments. The concept consists of **Aura White** which is printed on a transparent fabric in light, airy colours and **Aura Color** which is printed on a soft and dense satin weave that provides privacy and highlights the vivid coloring. The expression is both distinct and soft. The horizontal stripes are saturated in the centre of the fabric and fades subtly towards the edges where they merge into the solid background.*

We thought you'd like...

- the light and airy colour palette
- the transparent fabric with a subtle linen effect
- the soft light filtering properties
