

Wildflower 101721

Wildflower is an imaginative flower meadow which spreads freely across the width of the fabric. It is printed on our satin base fabric, a dense weave with a smooth surface and a subtle lustre. The close weave construction ensures glare control and the fabric is tested for sound absorption class C, which is a good acoustic value. The carefully thought out colour combinations are made to be easily co-ordinated with our wide selection of uni coloured fabrics.

We thought you'd like...

- the hand-drawn, dynamic textures in the design
- the class C sound absorption value
- the subtle lustre of the satin weave
