

SOUND ABSORPTION

Material: 100% Trevira CS

Weight: 190 g/m²

Base fabric: Blanc

Product: Josefina, Augusti, Aura Color

Absorption class: waved **C**, flat and panel **D**

This fabric quality provides a good absorption supplement and works especially well in higher frequency areas. It can be used for creating a damped acoustic environment and reduce wall reflections.

 All Almedahls textiles are sound measured in cooperation with
