

CircleRest101879-0051

**Circle** is a sustainable fabric concept made of fully circular copolyester, with Ocean Safe technology certified with Cradle to Cradle Gold. The benefits in short is that it is free of toxins and biodegradable, and leaves no microplastics behind. The manufacturing of the Circle fibre requires significantly fewer steps, less energy and less water consumption. At end of life the fabrics will be composted and recycled into new fibres through an established take back system.

**CircleRest** is a lightweight, textural, semi-transparent drapery. The refined weave construction gives a distinct materiality, tenderly stimulating the senses. The carefully crafted texture creates a delicate sense of depth to the piece dyed fabric. The pure look, crisp character and precise drape accentuate the sleek and elegant expression. The light nature of CircleRest balance between a sheer and a drapery creating privacy while still letting light through. The colour scheme is versatile and cool, built on contemporary neutrals working as a perfect complement the most common architectural materials as wood, concrete, glass and stone.

## Product Specification

---

Design	Almedahls Design Studio
Material	100% Polyester FR Biodegradable
Light transmission	Translucent
Openess factor	Pending test
Repeat	-
Turnable design	Yes
Width	300 cm, 118 inch
Weight	163 g/m <sup>2</sup> , 4,8 oz/yd <sup>2</sup>
Light fastness SS-EN ISO 105-B02 (scale 1-8)	5 - 6
Colour fastness to laundering SS-EN ISO 105-C06 (scale 1-5)	4 - 5
Shrinkage SS-EN ISO 6330+A1	< 2%
Care instructions	
Fire resistance standard	DIN 4102-B1
Sound Class SS-EN ISO 354	Pending test
Alfa Value	Pending test
Sustainability profile	Ocean Safe Certified Cradle to Cradle Gold Five Zero Green Biodegradable fibre SS-EN ISO 14001:2004
Other info	Can be used railroded to create a 2,75 m drop
