

TILT & NOTE

DYNAMISM

With the concept of DYNAMISM, we highlight the always changing compositions of our new hanging textiles TILT and NOTE.

almedahls

OUR NEW HANGING TEXTILES TILT AND NOTE CONTRIBUTE WITH A DYNAMIC ENERGY TO THE ROOM.

TILT'S DIAGONALS SUGGEST A PERSPECTIVE BY ADDING DEPTH THAT TAKES THE EYE ON A VISUAL JOURNEY. THE FOLDING ENGAGES THE DIAGONALS TO PORTRAIT AN ILLUSION OF MOVEMENT AND TO CREATE COMPELLING PATTERNS.

NOTE'S SHIMMERING & GRADIENT EFFECT ADDS DEPTH TO THE ROOM WITH SOFT TRANSITIONS OF HUES. ELEVATING THE MOOD AND GIVING AN ENERGETIC IMPRESSION WITH A SURFACE THAT IS VISUALLY APPEALING AND SOPHISTICATED.

TILT

NOTE

A window with various curtains and a red lamp. The scene is set in a room with a window. On the left, there are dark blue and grey curtains. In the center, there are light pink curtains. On the right, there are sheer light blue curtains. A red lamp with a pleated shade hangs in front of the pink curtains. In the foreground, there is a red table with four cylindrical legs and a red and white striped cylindrical object on the floor.

TILT and **NOTE** both have memorable designs. Their **DYNAMISM** is further explored in their translucent features.

Hanging in windows, they maintain the connection between inside and outside with a pleasant daylight-control function. The textiles illustrate the contrast between motion and stillness, where **TILT** and **NOTE** are the conductors of energy.

TILT

TILT COMES IN TWELVE COLOURS INCLUDING MUTED PASTELS, DARK MORE INTENSE HUES AND VERSATILE NEUTRALS. The two-toned stripe effect, created by blending three different yarn colours, makes each colourway easy to match with the other colours within the **TILT**

palette and with other elements in the interior. Although the shades are soft and muted the fabric is still carrying a strong attitude.

NOTE

NOTE SHIFTS EXPRESSION DEPENDING ON THE LIGHT CONDITIONS.

The see-through net texture is a cross-weave of twisting threads. A two coloured effect yarn in weft displays a gradient effect and a shimmering surface.

THE COLOUR PALETTE is characterized by a sophisticated Nordic elegance, a composition of neutrals, soft pastels, and an intense blue and a deep forest green for contrast.

NOTE is the perfect sheer for windows where lots of light is required to come into the room, or used as a subtle room divider when remaining contact with the surroundings is desired.
