

Bows II 100150-0100

The Bows design originates from a carpet sketch created in the thirties by world renowned modernist architect and designer Josef Frank. The sketch was re-interpreted by the Almedahls design studio, in the nineties, to create a repeated pattern and was first launched as a part of a larger Josef Frank concept for the Almedahls 150 year anniversary in 1996. This version of Bows is a fresh update, printed on a delicate transparent fabric in three contemporary colourways.

We thought you'd like...

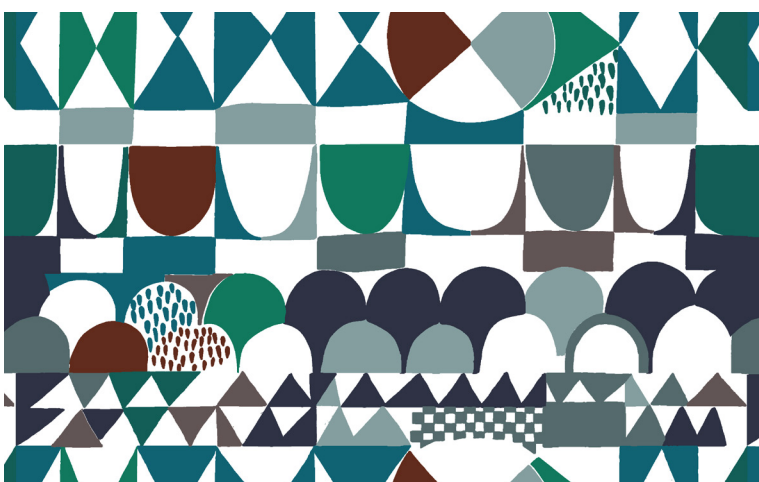

- the fresh update of a true classic design
- the delicate transparency of the fabric with beautiful light filtering properties
- the versatile colour ways with endless options to match with plains and textures
