Billow 101854

Billow is characterized by creativity and elegance, which is reflected in the design of its colour palette.

Billow is never dull. With one colour in the warp and two colours in the weft, the fabric has a subtle gradient effect. It opens up possibilities to introduce new colours or to combine several colours. It is a playful way to create transitions between colours and materials.

The mixture across the colour wheel provides a broad palette and diverse expressions to work with. The elegant twill binding presents an artistic expression, which is emphasized by the natural drape and soft surface. Billow is also an excellent candidate for hanging in the middle of a room; it is translucent and has great sound-absorbing functions.
