Feather 100160

Feather is a light yet expressive design created by interior architect and designer Maria Löw. The large-scale pattern has an organic flow, where the flower-like shapes seem to gently drift from one edge to the other while slowly dissolving. Feather is printed on a smooth satin weave with a subtle lustre, which beautifully enhances the colours. The dense fabric provides privacy and offers good sound absorption and light-reflecting properties.

The dense fabric ensures privacy and light reflection, the design is both striking and light, and the fabric's sound absorption properties make Feather an ideal choice for many spaces.
