

Spegling 100198-0041

Spegling is a poetic design by Jenny Stefansdotter Stentoft. The pattern was designed to translate the experience of sun rays coming through the tree tops and through the shading foliage of leaves, to be reduced to a comfortable light. The pattern is printed on a transparent, textured fabric and the two colour layers creates a sense of depth to the design. The colour palette is soft and inspired by nature and contains both neutrals and more colourful options in green and blue.

We thought you'd like...

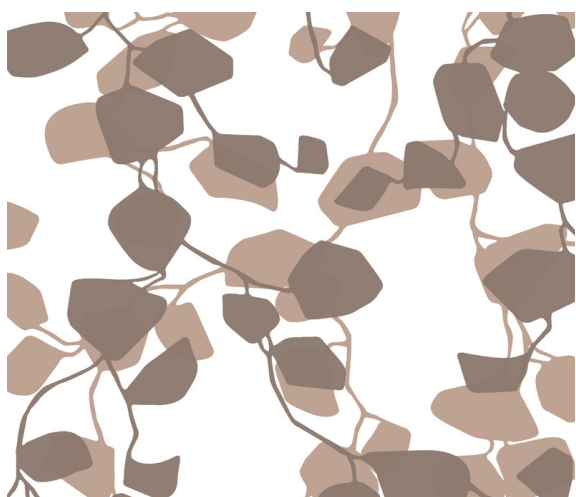

- the layered colour effect
- the sense of serenity in the design
- the delicate light filtering properties
