

Vika 101597-0001

*Inspired by nature, Nygårds Maria Bengtsson describes her pattern Vika in a poetic way; "The inspiration comes from the mountains, from the cross-country ski slopes. Traces in the snow. V-shaped traces going up, and straight fine lines going down. Diagonal pattern. Stripes folded in folds." The dynamic pattern is printed on our Bast curtain fabric which gives the design a textured depth*

#### We thought you'd like...

- the distinct asymmetrical design combined with the tactile materiality of a textured fabric
- the great sound absorption properties
- the versatile colour concept containing neutrals, pastels and deep saturated tones
- the possibility to match with uni-coloured curtain Bast
