BILLOW

Our new hanging textile Billow is characterized by creativity and elegance, which is reflected in the design of its colour palette.

Billow is never dull, with one colour in warp and two colours in weft, the fabric has a subtle gradient effect. It opens the possibility to introduce a new colour or to combine several colours. It is a playful way to create transitions between colours and materials.

The mixture across the colour wheel provides a broad palette and diverse types of expression to work with. The elegant twill binding states an artistic expression which is emphasized by the natural drape and its soft surface.

Billow is also an excellent candidate for hanging in the middle of a room; it is translucent and it has great sound absorbing functions.

**WITH ONE COLOUR IN
WARP AND TWO COLOURS
IN WEFT, BILLOW HAS A
SUBTLE GRADIENT EFFECT.**

The double-sided character of the weave adds several options for combining and harmonizing with other colours present in a space.
