DEEP 102049

DEEP is a versatile hanging textile that merges geometry with organic flow, creating a dynamic rhythm through varying dot sizes. Inspired by modernist minimalism and natural patterns like waves or raindrops, DEEP strikes a balance between order and chaos, reflecting the human touch in perfection. Its three-dimensional depth, visible under all lighting conditions, makes it both a subtle backdrop and a striking design element.

Designed by White Arkitekter's Andreas Sture and Olof Nordensson, DEEP is flame-retardant and transparent, with a weight of 90 g/m², an 18% openness factor, and a width of 200 cm. The carefully curated palette of 12 colours adapts effortlessly to diverse interiors, ensuring longevity in design. DEEP is part of our Acoustics-, Hygiene-, Daylight-, and Sustainability concepts, offering both aesthetic refinement and functional performance. Made from 100% recycled PES FR, it combines innovation with responsibility.
