

**Our production process is CO<sub>2</sub>-neutral and powered by renewable, fossil-free energy.**

### **Sustainability Statement from the Swedish Energy Agency**

At Almedahls AB, we are proud to have received a Sustainability Statement from the Swedish Energy Agency.

This certification confirms that we have established and maintain the necessary procedures to ensure the biofuels we use are sustainable.

By following these guidelines, we contribute to a more sustainable and environmentally responsible business and remain committed to minimising our climate impact.

The geographic origin of our biofuel purchases in 2024 includes: Germany, Spain, Hungary, Belgium, Italy, the United Kingdom, Turkey, and the Netherlands.
