

NOTE 101900

NOTE 101900

NOTE is ethereal and transparent, thin as gauze, but still full of character. The cross-weave with twisting threads creates the delicate net texture. Even though the fabric is completely see-through it adds a certain atmosphere. The shimmering surface brings a beautiful play with light. A twocoloured effect yarn in the weft, creates a shifting expression depending on the light conditions. NOTE is the perfect sheer for windows where lots of light is required to come into the room, or used as a subtle room divider when remaining contact with the surroundings is desired.

The colour palette is characterized by a sophisticated Nordic elegance, a composition of neutrals, soft pastels, and an intense blue and a deep forest green for contrast. NOTE is carefully coordinated with the lush and elegant diagonal texture TILT.
