# ZEN 102079

ZEN combines sheer lightness with a structured weave that adds subtle depth, tactility and architectural clarity to contemporary interiors. Its surface is formed through an interplay of two differently coloured weft threads, creating refined tonal variation and a controlled interaction with daylight.

Designed for professional environments with large glazed areas, ZEN balances openness and comfort by filtering light while preserving spatial clarity. The textile supports flexible zoning and layered window solutions in offices, hospitality settings and other contemporary interiors.

The palette includes 12 carefully developed colours, ranging from warm neutrals to muted greens and blues. Each shade is designed to integrate seamlessly into cohesive interior concepts and respond subtly to changing light conditions.

## PRODUCT INFORMATION

### Design and Material

Design: Studio Almedahls

Material: 100% Polyester FR

Width: 315cm (124 inch)

Weight: 105g/m2 (3.1 oz/yd2)

Number of colours: 12

### Pattern Features

Repeat: -

Turnable design: Yes

### Light Properties

Openness factor: 22%

Solar value average:  $R_s + A_s = 55$

Light transmission: Transparent

## PERFORMANCE

### Colour Fastness

Light fastness: 6  
(ISO 105-B02, scale 1-8)

Colour fastness to laundering: 4 - 5  
(ISO 105-C06, scale 1-5)

### Acoustics

Sound class: -  
SS-EN ISO 354

Alpha value: 0,08

### Flame Retardant Standard

NFPA701

## WASHING INSTRUCTIONS

Wash with similar colours

Shrinkage: < 2%  
SS-EN ISO 6330+A1

## SUSTAINABILITY

OEKO-TEX® STANDARD 100

Five Zero Green

SS-EN ISO 14001:2004

REACH

FIVE ZERO GREEN

STANDARD 100

Ö 97-059  
RISE

## OTHER INFO

This fabric is delivered with weight cord.

Wide width fabric.  
Can be used railroaded.

### Finishing

Our hanging textiles are hang-tested in a range of standard configurations prior to launch, allowing us to provide informed guidance on the finished result.

The fabric can be finished using the integrated weight cord for a clean, well-balanced drape, or with a folded hem for a more tailored expression. When opting for a folded hem, we recommend a wave factor of 120% to achieve an elegant, fluid fall.
