FAIRY 101605

FAIRY is a classic net curtain with a crisp, sharp mesh texture. It lets daylight through while creating a soft, hazy screen to the outside, and works well as a light room divider or for creating a space within a space. The more folds the curtain has, the more enclosed the room feels.

The discreet, natural colours combine easily with wood, stone, concrete and other architectural materials. With its 300 cm width, FAIRY can be railroaded for seamless hanging in large windows.
