HAZE 100123

HAZE has a coarse texture with a linen look at the front of the fabric while the back is smooth with a slight lustre. The fabric has a beautiful soft drape. The width of the fabric offers the possibility of using it railroaded to create seamless hanging in large windows. Apart from the dimout function, the fabric also has great sound absorption properties. HAZE comes in a wide versatile colour palette of muted earthy tones, perfect for creating a calm bedroom.

The appealing texture of the dimout fabric, its 294 cm width that allows for seamless hanging in large windows, and its excellent sound absorption properties (sound class C) make it an ideal choice for a variety of interiors.
