RANGO 100191

RANGO, a long time favourite in the Almedahls collection, now features a re invented colour scheme. The deep brilliance of gemstones, along with earthy shades and plant inspired colours, sets the tone for the new palette, created by Jenny Stefansdotter Stentoft. The slightly subdued hues, blended with the coloured background, provide a calm contrast to the lively colour scale of the original version. The flowy, growing foliage pattern interacts beautifully with the delicate fabric texture. RANGO is perfect for combining with our plain curtain fabrics in 3 m width and pairs well with the recently updated line texture, DAGG.

The pattern's soft tonal colour effect, the versatile colour scheme, and its delicate light-filtering properties make RANGO an excellent choice for various spaces.
